

Chief Marshall Report 2009/10

Through the summer season I was requested to train for further technical roles and was not on hand at every meet to fully organize the marshalling. I would like to thank Richard Evans and Andrew Orlicki for their support as they stepped up to assist in that role.

The season held no major hic ups and as far as I could tell everything ran smoothly. During that time the days were made interesting by having to deal with the variation in climate. Keeping the kids warm or cool, making them laugh, encouraging the young swimmers to compete (and some golden oldies), fitting in snacks, watching my son swim and working through technical issues.

For me this role gave me the opportunity to reinforce the knowledge that I had acquired over the previous years and I thank everyone for their cooperation.

The only comment I have is to say encourage parents to keep the kids arriving on time to marshalling and to continue their support with swimming in Gippsland.
